# Mor Sharoni
## Computer Science Student

E-mail: morsharoni30@gmail.com                         GitHub: github.com/msharoni

-------------------------------------------------------------------------------------------------------

## Objective

Innovative computer science specialist seeking to acquire real world high-tech experience. I would like to achieve this goal by working a full time job during the summer and into the coming year.

## Education

I take part in a program for gifted students which allows us to complete a bachelor degree in computer science  at the Jerusalem College of Technology (JCT) while simultaneously finishing highschool with the highest marks possible. I am currently finishing 12th grade and therefore completing my fourth year of the five year program which accounts for about 80% of my degree.

## Computer Programming Experience

- Highly Experienced in:
- C++
- Python
- C#

- Slightly Experienced in:
- Html
- Css
- Flutter / Dart

Experience using the python django web framework

Experience using github

## Skills

- Fast Learner of new programing frameworks and languages
- Highly experienced in the use of Visual Studio and Visual Studio Code
- Time Management
- Responsibility
- Extremely Hungry for more knowledge

## Notes

- I have some experience in the cyber field after breaking into a word press website using the wpscan tool on github and several self made scripts.

- I have gained some experience from past jobs but they were mostly either freelancing or short term projects.

- I grew up in New York in a Hebrew speaking household and therefore am fluent in both English and Hebrew.
